Echoes of Bad Government We desire to call the attention of our readers to the communications to, and the editorial from, the Rulei, h Sentinel, which we publish this morning. These are merely the beginnings of the end. We have only in these statements the initial movements of two of Governor Holden's vicious hirelings, Bosher and Kirk.

We ask every honest christian man, into whose hands falls this number of the Jour-NAL, to read the letter of Mr. Norms .-How it appeals to the heart of every parent in the land. His simple statement will sink deep into the soul of every freeman in North Carolina.

Then read the eard of Major Avery, and learn something of the operations and threats of the infamous Kirk in the West. Major Aveny and his family are no strangers to the people of North Carolina .-From the signing of the Declaration of Independence at Mecklenburg until the present day the Avery's are identified with the proudest history of the State. Kirk has already murdered one of the family, a noble and brilliant son of North Carolina, and now seeks the death of another .-Armed with Holden's commission, and protected by his band of cut-throats and thieves, he feels warranted in placing a pre- vass is looked upon as the harbinger of mium upon the head of one of the most gallant and meritorious gentlemen of the

We have said it, and we repeat, Holden means mischief. He intends to force our people into resistance by the atrocious character of his outrages. He selects his victims among those most calculated to excite the feelings of the people. Members of the church, students of theology, invalids sick in bed, against whom there is not one iota of proof nor the least shadow of suspicion, are dragged from their homes by the military; bail is refused them; and they are cast in a felon's cell, after being paraded to conform to Holden's wishes. Lientenant Cobb, of the U. S. Army, was willing to keep these young men as prisoners at the Barracks, but Holden wanted them

the House, with one to spare. In addition to this there is the greatest probability that the Democrats will carry one or both of the Boston districts, and the certainty of two of the South Carolina and several of the Georgia and Louisiana districts, with chances in favor of a gain in Alabama. In South Carolina the House voted in two Radicals who were defeated at the polls, and several in Louisiana.

The prospect looks encouraging.

Registration.

The Attorney General decides that registration is only necessary "in counties not districted at the last registration, and where material changes are made in the

boundaries as to voting places." In .ome counties this has not been done, and it will be necessary for every man in such counties to renew his registration before he can vote.

It will be prudent to do so in every county. If there is a new registration there will be no doubt in regard to the matter. At least we would advise our friends in such counties where a new registration is not required under the opinion duty. He will spare no honorable effort of the Attorney General, to call upon the Registrar and see if their names appear people will exert themselves as he will, the properly upon the list.
